

All About UAC for 2017  
**Year 11 and 12 Students**

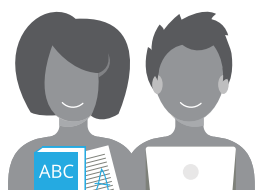

# All About UAC for 2017 Year 11 and 12 Students

---

## Key dates

Mid-July	UAC Guide distributed to Year 12 students
Early August	Applications open
End September	On-time applications close
Mid-December	HSC results and ATARs released
Early January	Change of preferences for Main Round close
Mid-January	Main Round offers made

## Fast facts

Study courses at school you enjoy and do well in – just about any combination of courses can lead to a good ATAR – but make sure you understand eligibility rules.

To find out if tertiary study is for you, consider your interests, what subjects you enjoy and what classes you do well in, and investigate what careers these may lead you to.

Apply for tertiary study through UAC's website – you don't need to apply separately to each institution.

Understand the application process and how to manage your application so you can make the most of the offer process.

# Thinking about university?

Now that you're in Year 11 or 12 you may be thinking about where you're heading after school. For some it will be off to work or further training and for others it will be tertiary study. Working out what you would like to do next can be daunting.

## What's next?

If you're unsure about your next steps and are wondering if university is for you, this booklet will guide you through some of the things to think about and answer some questions you may have. It also explains the process of applying to university through UAC, the Universities Admissions Centre.

UAC processes applications for admission to undergraduate tertiary courses at participating institutions, mostly in NSW and the ACT.

UAC also:

- calculates and provides the Australian Tertiary Admission Rank (ATAR) to NSW HSC students
- processes applications for Schools Recommendation Schemes (SRS)
- processes applications for some Equity Scholarships (ES)
- processes applications for Educational Access Schemes (EAS)
- administers tertiary admissions tests such as the Special Tertiary Admissions Test (STAT).

**UAC's participating institutions are listed on page 7 and at [uac.edu.au/undergraduate/institutions](http://uac.edu.au/undergraduate/institutions).**

## Is university for me?

'Not sure yet' or 'maybe' are answers you might give to this question. This isn't surprising. Many Year 11 and 12 students are still not sure of the career path they want to follow.

It's all about thinking of what you want to do, not what you want to be. You may want to be an astronaut, but what do you want to do as an astronaut and how are you going to get there?

Selecting the course you need to get the job you want is important, not only now but in the next few years.

Uni isn't just for the brightest students. It's for anyone who's committed to reaching their full potential and wants to acquire the skills and experience to achieve their goals.

If you're looking at a specific career path for which extra study is the key to success, then uni could be the right choice for you.

## All about the ATAR

Although getting into uni isn't only about the ATAR – the Australian Tertiary Admission Rank – it's a good place to start.

The first thing to understand is that your ATAR is a rank, not a mark. It's a number between 0.00 and 99.95 with increments of 0.05. The ATAR provides a measure of your overall academic achievement in relation to that of other students and helps universities rank applicants for selection into their courses.

Your ATAR indicates your position relative to the students who started high school with you in Year 7 (in other words, your age group). So, an ATAR of 80.00 means that you are 20 per cent from the top of your Year 7 group, even though not everyone who started with you in Year 7 went on to achieve an ATAR.

The average ATAR is usually just below 70.00. Some people are surprised by this, thinking that the average should be 50.00. It would be 50.00 if everyone from Year 7 went on to achieve an ATAR. But because the students who leave early are typically less academically able than the ones that stay on, the students receiving ATARs are a smaller, more academically able group, and the average ATAR for this group is higher.

## FRED AND LAURA

Fred and Laura are two Year 12 students who are thinking about going to university next year. Fred goes to school in the city and enjoys hanging out with his friends and playing football. The end of school seems a long way away but he thinks he might study something to do with sport when he finishes. He also likes the sound of business studies.

Laura goes to school in the country and grew up on her family's farm. She loves it when her friends come to stay and they go horseriding. Although she always thought she would study something related to agriculture, she likes many different subjects at school, including Visual Arts, so she's also thinking about being an art teacher, which will allow her to be creative and work with her hands.

Fred and Laura have chosen the same subjects for the HSC: Biology, Business Studies, English (Advanced), Mathematics, Modern History and Visual Arts.

Throughout this booklet we'll use Fred and Laura's story to show you how you can navigate your way to tertiary study.

### ATAR courses

In NSW, ATAR courses are courses developed by the NSW Education Standards Authority for which the Authority conducts formal examinations that give you a graded assessment. These are the only courses that can be included in the ATAR calculation. ATAR courses are classified as either Category A or Category B courses. Only two units of Category B courses can be included in the ATAR calculation.

#### Category A courses

These courses have the academic rigour and depth of knowledge to provide a foundation for tertiary studies; for example, Mathematics, Geography and Visual Arts. For a complete list, visit [uac.edu.au/atar/courses.shtml](http://uac.edu.au/atar/courses.shtml).

#### Category B courses

These courses don't provide an adequate foundation for tertiary studies, but they can contribute to the ATAR when combined with Category A courses. No more than two units of Category B courses can be included in the ATAR calculation. Examples of Category B courses are Financial Services, Hospitality and Automotive. For a complete list, visit [uac.edu.au/atar/courses.shtml](http://uac.edu.au/atar/courses.shtml).

**In the ACT** your ATAR is calculated from your best three T or H major scaled course scores plus 0.6 of the next best scaled course score. The scaled course scores are added to form an Aggregate Score. Students are then ranked based on their Aggregate Score, which is converted to an ATAR.

The ATAR calculated by the ACT Board of Senior Secondary Studies (ACTBSSS) is directly comparable to the ATAR calculated in NSW and other states.

### Your Year 12 marks and your ATAR

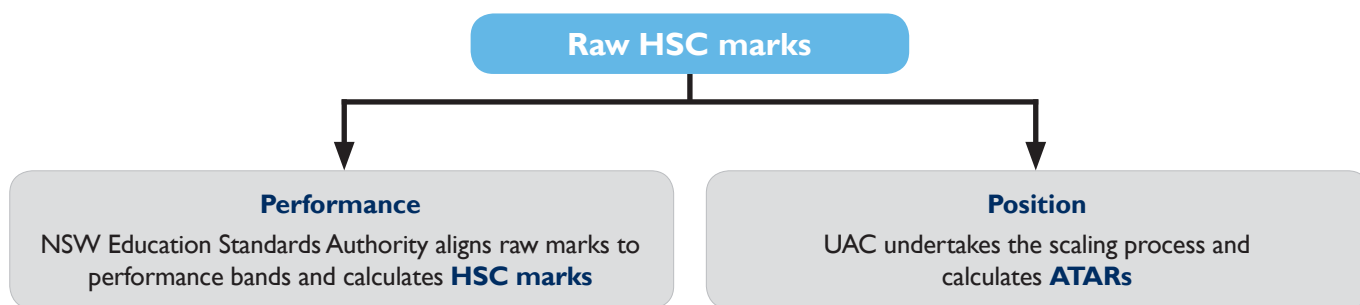

The most common question is 'Why is my ATAR low compared to my Year 12 marks?'

Your Year 12 marks and your ATAR shouldn't be compared because although they are both numbers they have different meanings, like different currencies.

The ATAR is a rank, not a mark. It indicates your position overall against other students. Your Year 12 marks, on the other hand, tell you about your performance. It isn't possible to average your HSC marks to calculate your ATAR or to estimate your ATAR using your HSC marks. This is because, like in a race, your performance or time doesn't necessarily say anything about your position or place.

The median HSC mark for most 2-unit courses is between 70 and 80. The middle ATAR is usually just below 70.00, which is lower than the median HSC mark. So the ATARs of students in the middle of the HSC candidature will be typically lower than their average HSC mark.

Although there are many websites that claim to be able to calculate your ATAR, UAC does not endorse the use of ATAR calculators. ATAR calculators do not use current data so can only be a general indication of a student's possible ATAR.

Your HSC marks	Your ATAR
<b>Your HSC marks</b> provide information about how well you have performed in each of the courses you have completed.	<b>Your ATAR</b> provides information about where you are positioned overall against other students.
<b>Your HSC marks</b> indicate your performance in the different courses you have studied.	<b>Your ATAR</b> allows you to be compared with students who have completed different combinations of courses.
<b>Your HSC marks</b> are reported against standards.	<b>Your ATAR</b> is a rank, not a mark.
In NSW, <b>your HSC marks</b> are provided by the NSW Education Standards Authority. In the ACT, <b>your Senior Secondary Certificate marks</b> are provided by ACTBSSS.	In NSW, <b>your ATAR</b> is provided by UAC. In the ACT, <b>your ATAR</b> is provided by ACTBSSS.

## Scaling

Because marks in different courses can't be compared, marks of individual students are scaled before they are added to give the aggregates from which ATARs are determined.

The scaling process is designed to encourage you to study courses you enjoy, are good at, and that best prepare you for future study. The underlying principle is that you should neither be advantaged nor disadvantaged by choosing one course over another.

**Remember, the ATAR is about position, and your position in a course is not altered by scaling.**

For more information about the ATAR, visit UAC's website at [uac.edu.au/atar](http://uac.edu.au/atar). You can also download these publications:

- *All About the ATAR and Applying for Uni for Students and Parents* (booklet)
- reports on the scaling of the NSW Higher School Certificate
- *The Australian Tertiary Admission Rank in New South Wales: A Technical Report* (booklet).

**ACT Year 12 students** who want to apply for tertiary study must sit the ACT Scaling Test (AST). The AST is used by ACTBSSS to calculate your ATAR.

For more information about the ACT ATAR, visit the ACTBSSS website at [bsss.act.edu.au](http://bsss.act.edu.au).

## Your Year 12 subjects

At the end of Year 11 you need to decide on the subjects you will continue in Year 12. There are a few things to consider when you do this.

### If you drop a subject will you still be eligible for an ATAR?

To be eligible for an ATAR, NSW students must complete at least 10 units of ATAR courses. These ATAR courses must include at least:

- eight units of Category A courses
- two units of English
- three Board Developed courses of two units or greater
- four subjects.

You can include up to two units of Category B courses.

If you are an **ACT student**, your ATAR is calculated from your performance in your best courses. If you drop a course it may not affect your ATAR directly, but you need to take into account prerequisites for tertiary courses.

## Is the subject you're dropping a prerequisite for a course or subject you'd like to study at uni?

Some tertiary courses require you to have studied certain subjects, or their equivalent, or to have achieved a specific standard before you'll be offered a place in the course.

If you don't have the required course prerequisite, you cannot be selected for the course.

If you don't have a required subject prerequisite, but have met the admission requirements for a course, you may still be selected for the course but be unable to take the particular subject.

There are a few places you can check prerequisites:

- UAC's booklet on university entry requirements for Year 10 students for your year of entry to uni
- the course description on UAC's website or in the My UAC app
- the UAC Guide
- institution websites.

## FRED AND LAURA

Fred and Laura studied the same subjects for the HSC. When Fred and Laura finished their exams, their HSC marks and their ATARs showed the difference between their performance and their position.

In the table below you can see that Fred got marks of 70 for all his courses, while Laura's marks were all 80. Even though their HSC marks only differed by 10, the difference between their ATARs is 21.40. Their performance was similar, but their positions were quite different.

HSC marks between 70 and 79 are Performance Band 4 results. These are 'average' HSC marks, so a large percentage of students are in this category. This means that when students are ranked for their ATAR, those at the bottom of Band 4 (like Fred) are placed significantly lower than those at the top of Band 4 or higher (like Laura).

The 'percentile' column in the table below tells the story of their positions in more detail. For example, let's look at Biology. Laura's mark of 80 positioned her in the 68th percentile, which means she is placed in the top 32 per cent of students. Fred, on the other hand, with his mark of 70, is in the 38th percentile, so he is only in the top 62 per cent of students. Even though Fred and Laura's performance in Biology differed by 10 marks, their positions differed by 30 (68-38).

Course	Fred		Laura	
	HSC mark	Percentile	HSC mark	Percentile
Biology	70	38	80	68
Business Studies	70	39	80	68
English (Advanced)	70	11	80	42
Mathematics	70	26	80	50
Modern History	70	29	80	62
Visual Arts	70	14	80	50
<b>ATAR</b>	<b>57.10</b>		<b>78.50</b>	

## What about ‘assumed knowledge’ and ‘recommended studies’?

Some institutions assume you have knowledge of a specific HSC subject or its equivalent before you begin a particular tertiary course. If you don't have the assumed knowledge but do have a suitable ATAR, you may still be selected for the course but you may have some difficulty coping with your studies.

Some institutions offer bridging or introductory courses to help you achieve the required level of assumed knowledge. However, these courses are not equivalent to the two-year HSC course and they may add significantly to your workload at university.

Recommended studies are HSC, ACTBSSS or equivalent subjects that the institutions suggest will help you in your chosen tertiary course. If you haven't studied these subjects, your chances of selection are not affected but, again, you might be offered a bridging course.

You can check assumed knowledge and recommended studies in the following places:

- UAC's booklet on university entry requirements for Year 10 students for your year of entry to uni
- the course description on UAC's website or the My UAC app
- the UAC Guide
- institution websites.

**ACT Year 12 students** may need to know how their Senior Secondary Certificate subjects compare to NSW HSC subjects when applying for NSW universities. For a list of comparable ACT and NSW subjects, visit [uac.edu.au/undergraduate/admission/interstate.shtml](http://uac.edu.au/undergraduate/admission/interstate.shtml).

## FRED AND LAURA

Fred thinks he might apply for a Bachelor of Sport and Exercise Science and the course description says he needs to have Mathematics and any two units of English as assumed knowledge. Luckily, he has studied these subjects.

Laura wants to apply for a Bachelor of Agriculture and her preferred institution lists Biology and/or Chemistry as recommended studies with Mathematics as assumed knowledge. Laura has studied both Biology and Mathematics.

With the HSC subjects they've chosen both Fred and Laura would, according to the institutions, have a good background knowledge of key subjects in these degrees and would likely do well if they decided to study them.

# Step 1: Prepare

---

Choosing the direction you want to take in your life can be difficult. To make the best decisions it pays to do your research and find out as much as you can about the areas that interest you.

## What to consider

Here are some research tips.

- Consider what your interests are, what subjects you enjoy at school and what classes you do well in. Often these are the same because you tend to do well at subjects you enjoy and are interested in.
- Investigate the types of jobs that involve these subjects.
- Think about whether you like being outside or inside; with people or on your own. Do you like helping others? Do you like working with technology?
- Talk to your teachers – they know your abilities and can give you feedback on what careers may suit you.
- Ask your careers adviser for information and options that can be explored to achieve your goals.
- Talk with your parents and family about your thoughts on a career. They might have great ideas or know someone in an industry that interests you.
- Speak to people you know who are working in the field.
- Do some work experience. You might consider volunteering at a workplace to see if you enjoy it.
- Talk to friends about what they're interested in and what they've found out and share what you know.
- Visit careers expos and attend employment information sessions where you can meet prospective employers and recruiters.

Also consider job growth areas. You can find out about skills shortages in different fields by looking at job vacancy websites. Ask at your local job centre or look at government websites: there are a few listed in the box to the right.

## Which university, which course?

If you've decided that tertiary study is for you, the next questions are which institution and which course?

There are many different institutions of varying size and location to choose from and there are more than 2,000 undergraduate courses available through UAC.

UAC handles applications for participating universities and private colleges.

Universities offer longstanding, well-rounded opportunities for pursuing your academic goals. A private college may also be an option; they can offer specialist courses that are flexible and can adapt quickly to changes in industry.

Courses at most private colleges are full fee-paying – this means your course costs are not subsidised by the Australian Government. However, you may be eligible for FEE-HELP, a government loan scheme that helps eligible students repay their tuition fees once their income meets a certain amount.

Here are a few tips on researching your options.

- Talk to your careers adviser and teachers.
- Talk to students, friends and relatives about their study experiences.
- Look at what courses are offered. Courses offered in 2016–17 are at the end of this booklet. Also explore the undergraduate course search on UAC's website or in My UAC, UAC's mobile app.

The UAC website and the UAC Guide also provide general information about institutions and details of special entry and access schemes, open days and admission requirements. As each institution is slightly different, it's wise to read about each one you're interested in.

## Career research websites

There are lots of places to research potential careers. Here are a few to get you started.

### Job Outlook

Provides data on employment characteristics, trends and prospects for occupations.

[joboutlook.gov.au](http://joboutlook.gov.au)

### Jobactive

Advertises vacancies across all industries and regions within Australia.

[jobsearch.gov.au](http://jobsearch.gov.au)

### Careers Advisory Service

Provides up-to-date information on a range of relevant career and study options following the release of HSC results.

[cas.det.nsw.edu.au](http://cas.det.nsw.edu.au)

### Graduate Careers Australia

Produces a range of graduate information about industry and salary trends and employment opportunities.

[graduatecareers.com.au](http://graduatecareers.com.au)

- Although many institutions offer courses with the same name, each may have a different structure and content. So looking at the areas of study and asking questions about the course content is important.
- Check out institution websites and ask questions online, or request a prospectus. A prospectus has detailed information about the campus, facilities and courses.
- Go to open days so you can get a feel for the campus and explore the facilities that are available to students. Most institutions will have faculty representatives and presentations to explain the content of courses being offered. This is a great opportunity to ask questions to help you make informed decisions about what and where you would like to study. Refer to page 7 for a list of open days at UAC's participating institutions.
- Ask your careers adviser about special entry and early offer schemes, and how to apply for them.
- Think about key questions like:
  - Do I want to study close to where I live?
  - Does the institution that I like have everything I'm looking for?
  - What other aspects of uni life am I interested in?
  - Which mode of study would suit me?

A full-time degree usually takes three to four years to complete. Studying part-time will take you longer to finish your course, but it may suit you if you have other commitments.

If you can't study on campus, distance education is a good alternative. You can vary the number of subjects you study to suit your schedule. All work is done online, but you may need to attend residential school for a few days once a semester.

For more information about the courses you're interested in, visit UAC's course search at [uac.edu.au/undergraduate/course-search](http://uac.edu.au/undergraduate/course-search) or download the My UAC app.

## What does it cost?

Your course costs will depend on the institution you attend and the type of course you enrol in.

There are two main types of courses for domestic students:

- Commonwealth-supported (CSP)
- domestic fee-paying (DFEE).

Most university courses for Year 12 students are CSP. This means the Australian Government pays some of the course cost and you pay a student contribution.

Each institution sets its own student contribution level for each unit of study. The range varies depending on the area of study.

DFEE courses are generally run by independent or private colleges, institutes or training organisations. DFEE courses typically cost more up-front than CSP courses – you pay the full cost of your course. Your tuition fees are not subsidised by the Australian Government. The amount you pay depends on the institution and the type of course as each institution sets its own tuition fees for its DFEE course.

A small number of courses are:

- a combination of CSP and DFEE (eg the Bachelor program is CSP, the Masters program is DFEE)
- sponsored by the Australian Defence Force (ie the student contribution is paid by the Australian Defence Force)
- exempt from student contributions
- fee-paying with VET Student Loans for eligible students
- fee-paying with no government loan scheme.

The course fee type is identified in each course description on UAC's website, in the My UAC app and in the UAC Guide.

The Australian Government is consulting on a range of changes that will affect the fees that universities can charge. The Higher Education Loan Program (HELP) is also subject to legislative change.

For the most up-to-date information, visit the Study Assist website at [studyassist.gov.au](http://studyassist.gov.au) and contact institutions directly.

## Other costs

Apart from your student contribution, you need to think about other costs involved in going to uni.

### Accommodation

If you have to move out of home to attend uni, there are many options. For on-campus accommodation, contact the institutions you are interested in and ask for a prospectus, which will outline the facilities that are available. Don't wait until the last weeks to get organised, as on-campus accommodation fills quickly.

Renting independently or in a share house with friends is another option. University housing services can help you to find other students in a similar situation.

### Travel costs

If you study full-time, you will be able to use public transport at a cheaper rate. International students are eligible for discounted public transport fares on some tickets.

If you intend to drive you might need to obtain a parking permit from your institution. For information on parking permits and fees, contact the institution's student centre.

### Living expenses

You need to think about day-to-day living expenses for food, utilities (including your phone) and entertainment.

### Textbooks and equipment

In your first year of study your textbooks can be one of your largest expenses. However, at most universities you will be able to buy second-hand books from other students to save some money.

Also, some courses may require you to buy specialist equipment. Check with the faculty of the institution you're interested in to see if this is the case.

### Computer and internet access

You will need a computer with internet access to make the best use of your uni's online study facilities.

**UAC's app, My UAC, allows you to search for courses, access your ATAR, manage your preferences and check your offers. My UAC is available for Apple and Android devices.**

## FRED AND LAURA

Fred has lots of friends from school who also want to go to university. He'd like to stay in the city so he can keep in touch with them. He's also thinking of living in share accommodation or on campus to make the most of the social life.

Laura thinks she'd like to study close to the family farm so that she can keep up her horseriding and save money by living at home. She also likes the idea of a university with smaller class sizes.

Fred has checked UAC's course search and found that there are many courses in sport and business available at institutions in the city. Laura has one institution close to her home and has checked its website to see what sort of art, teaching and agriculture courses it has.

They've both decided that studying full-time is the best way to complete their study as quickly as possible.

## International students

If you are not an Australian citizen or permanent resident of Australia, but are studying an Australian Year 12, International Baccalaureate or New Zealand NCEA, you apply through UAC as an international student.

Check the international course search on UAC's website or the international booklet, as not all domestic courses are available to international students. You'll receive a copy of UAC's international booklet through your school in Term 3 of Year 12. It is also available to download on UAC's website.

Courses available to international applicants are known as international fee-paying (IFEE) courses. Each institution sets its own tuition fees for international students, so fees vary between institutions and courses.

International students must pay these course fees up-front.

## How can I pay for university?

### HECS-HELP

If you enrol in a CSP course, you can choose to pay all or part of your student contribution up-front, or defer payment by taking a HECS-HELP loan, which is repaid later through the tax system when your salary reaches a certain amount.

If you plan to pay your student contributions through the HECS-HELP scheme you must have a tax file number (TFN) when you enrol at university. Visit the Australian Taxation Office website at [ato.gov.au](http://ato.gov.au) for information on applying for a TFN.

### FEE-HELP

This Australian Government loan scheme helps eligible students pay their tuition fees for DFEE courses. (It won't pay for other costs like accommodation or textbooks.) Your FEE-HELP loan is repaid later through the tax system once your salary reaches a certain amount.

For information about HECS-HELP and FEE-HELP, visit [studyassist.gov.au](http://studyassist.gov.au).

### Work

Most students in tertiary study have a part-time or casual job. Some work in the area of their study to gain some experience before graduating.

### Government assistance

Centrelink provides financial assistance for students studying full-time and part-time through income-tested schemes such as Youth Allowance, Austudy and ABSTUDY.

### Youth Allowance

Youth Allowance provides assistance to students aged between 16 and 24 who are studying full-time in an approved course.

Students under the age of 22 are usually considered dependants of their parents and the rate of Youth Allowance paid is based on the parental income test. However, there are circumstances in which they will be considered as independent, such as being unable to live at home, and in these cases their parents' financial situation is not taken into account.

### Austudy

Austudy provides assistance to students aged 25 or over who are studying full-time in an approved course. All Austudy students are automatically considered independent, therefore the parental income test is not necessary. However, there is a partner and personal income test and an asset test.

Students receiving Youth Allowance or Austudy may also be eligible for:

- Fares Allowance for travelling between their permanent home and their tertiary institution
- Rent Assistance
- Low Income Health Care Card
- Pharmaceutical Allowance
- Remote Area Allowance
- an interest-free advance payment.

### ABSTUDY

ABSTUDY provides assistance to Aboriginal and Torres Strait Islander students, apprentices and trainees who are studying full-time or part-time in an approved course.

For more information about Australian Government assistance with tertiary study costs, visit [studyassist.gov.au](http://studyassist.gov.au).

### *Relocation Scholarship*

The Commonwealth Relocation Scholarship is an annual payment for eligible Youth Allowance or ABSTUDY students who have to relocate to or from a regional or remote area to study. Austudy students are not eligible for a Relocation Scholarship.

## Institution scholarships

Institutions offer equity scholarships and merit-based scholarships to prospective and current students.

### *Institution Equity Scholarships*

Institution Equity Scholarships are awarded to students experiencing financial or educational disadvantage. Read about the eligibility criteria and application process for these scholarships on page 18.

### *Merit-based scholarships*

Merit-based scholarships are awarded to applicants on a range of criteria such as:

- school examination results
- academic excellence
- Australian Tertiary Admission Rank (ATAR)
- course/faculty of study
- personal achievements such as:
  - leadership
  - creativity
  - self-motivation
  - communication skills
  - an outstanding ability in sport.

You need to apply directly to individual institutions for merit-based scholarships. To find out more, visit the websites listed on the next page.

## Additional selection criteria

When considering your university studies, make sure you find out what is expected of you for entry.

As a Year 12 student you will be selected on the basis of your ATAR (plus bonus points) for most courses. However, some courses have additional selection criteria. You may need to attend an interview or audition, present a portfolio, provide a personal statement, or sit a test such as the Undergraduate Medicine and Health Sciences Admission Test (UMAT).

Course selection criteria can be found in the course descriptions on UAC's undergraduate course search at [uac.edu.au/undergraduate/course-search](http://uac.edu.au/undergraduate/course-search), in the My UAC app, or in the UAC Guide.

If Medicine or Optometry interests you, you'll need to register for UMAT early in Year 12. Do this before you apply for uni, as UMAT is only held once a year in July and applications close in early June.

**For information about UMAT, visit the ACER website at [umat.acer.edu.au](http://umat.acer.edu.au).**

## International students

International students applying to medicine, dentistry, veterinary science and physiotherapy courses at some Australian universities are required to sit the International Student Admissions Test (ISAT).

Some other courses may also require special categories of applicants to sit for ISAT. The university will notify you if you are required to sit for this test.

For information about ISAT, visit the ACER website at [isat.acer.edu.au](http://isat.acer.edu.au).

## Institution scholarship websites

Applications for merit-based scholarships are made directly to individual institutions. To find out more about merit-based scholarships, visit the websites listed below.

# Step 2: Apply

---

Now that you've done your research and decided on the courses you'd like to study, you need to apply.

## Applying to uni

Every year, more than 50,000 Year 12 students apply through UAC for admission to courses offered by UAC's participating institutions.

You apply for uni online through UAC's website – you don't need to apply separately to each institution. UAC processes the applications but the institutions decide who receives an offer of a place.

**UAC's participating institutions are listed on page 7 and at [uac.edu.au/undergraduate/institutions](http://uac.edu.au/undergraduate/institutions).**

## Who can apply?

You can apply through UAC if you're:

- an Australian citizen
- a New Zealand citizen
- a permanent resident of Australia
- the holder of an Australian permanent resident humanitarian visa.

## The application process

### How to apply

NSW and ACT Year 12 students will need a four-digit UAC Personal Identification Number (PIN) to apply. This is different to your HSC PIN. Your UAC PIN will be sent to you in early August. You'll need your UAC PIN and Year 12 student number, issued to you by the NSW Education Standards Authority or ACTBSSS, to start your application the first time. A nine-digit UAC application number is generated after you enter your personal details.

Keep these numbers handy and don't share them with others. You'll need your UAC PIN and UAC application number to log in to your application after this and to retrieve your ATAR and university offer/s.

Here's a checklist of what you need to have ready to apply:

- your Year 12 student number and UAC PIN
- your UMAT candidate number, if relevant
- your chosen courses (up to five) and their course codes – which can be found on the course search on UAC's website, in My UAC or in the UAC Guide – in order of preference, with the top one being your most preferred
- a printer, to print your application package, which includes your Confirmation of Application, payment receipt or invoice and document cover sheet (if you are required to send us documents)
- a credit card (MasterCard or Visa) to pay the processing fee. You can also pay by PayPal, BPay or over the counter at Australia Post.

**Apply for uni at [uac.edu.au/undergraduate/apply](http://uac.edu.au/undergraduate/apply).**

---

*Check the course description through the course search on UAC's website or in My UAC to make sure the courses you want to apply for are still available and for details of any additional selection criteria.*

*Watch the Applying as a Year 12 video at [uac.edu.au/media-hub/videos.shtml](http://uac.edu.au/media-hub/videos.shtml). It shows you how to apply for university through UAC, step by step.*

---

## International students

Some international students can apply through UAC. If you are not an Australian or New Zealand citizen or a permanent resident of Australia, you can apply for undergraduate courses through UAC if you're completing:

- an Australian Year 12 qualification
- an International Baccalaureate
- a New Zealand NCEA Level 3.

All other international students need to apply directly to the institution.

International applicants are encouraged to apply by late October for courses starting in semester 1; however, applications for semester 1 don't close until early February. Application processing fees for international students do not increase during the admissions period.

If you're an international student you will receive a 'conditional offer' from UAC immediately after you apply. This is for visa purposes only and does not guarantee a place in a course. Read page 25 for more information.

## Studying interstate

If you want to study in another state, you need to apply through the tertiary admissions centre in that state or directly to the institution.

- Victoria: Victorian Tertiary Admissions Centre, [vtac.edu.au](http://vtac.edu.au).
- Queensland: Queensland Tertiary Admissions Centre, [qtac.edu.au](http://qtac.edu.au).
- South Australia and Northern Territory: South Australian Tertiary Admissions Centre, [satac.edu.au](http://satac.edu.au).
- Western Australia: Tertiary Institutions Service Centre, [tisc.edu.au](http://tisc.edu.au).
- Tasmania: University of Tasmania, [utas.edu.au](http://utas.edu.au).

## When to apply

Make sure you apply before midnight on the 'on-time' closing date, usually the last business day in September. If you apply after this date you will pay a progressively higher processing charge.

Some courses have earlier application closing dates than the UAC closing dates. Check these details in the course search on UAC's website, in My UAC or in the UAC Guide before you apply.

It doesn't matter if you're not sure which course to apply for – just apply on time by the end of September and list at least one preferred course. You can change your preferred courses as many times as you want before change of preference deadlines. When you get your ATAR in December, you can make more informed choices about the university courses you want to apply for and change your preferences.

In your application you'll be asked if you'd like to receive information about pathway programs if your application to university is unsuccessful. Choose this option to make the most of your application.

When you apply you will receive your UAC application number. This number will also be printed on your Confirmation of Application.

Write this number down as you will need it to log in to Check & Change on UAC's website or in the My UAC app, to change your preferences or to retrieve your ATAR and uni offer/s.

When you've completed your application, download and print your Confirmation of Application.

**To update your application log in to Check & Change at [uac.edu.au/undergraduate/check-change](http://uac.edu.au/undergraduate/check-change).**

## Course preferences

When you apply, you need to list courses in the order you'd like to study them, with the one you'd like to do the most at the top, the next most preferred second, and so on. If you're interested in only one course, then enter only that course. You can choose any number of courses up to a maximum of five. International students can choose up to six courses.

Similarly, if you're only interested in one university, choose one, or you can apply for courses at a number of universities. The choice is yours.

Last year's Main Round cut-offs (see the course listing starting on page 30) are published to be used as a guide to your chances of being selected. These are also used on UAC's website, in My UAC and in the Guide. The current year's cut-offs aren't known until Main Round offers are made.

## How you're selected

To be selected for a place in a course you must:

- be eligible to be considered
- be competitive with other eligible applicants.

To be eligible you must meet the admission requirements of the institution offering the course, and meet the entrance requirements of the course. For most courses you will be selected on the basis of your selection rank; that is, your ATAR plus bonus points (read page 20). But some courses have prerequisites or additional selection criteria such as a personal statement, questionnaire, portfolio of work, interview, audition or test. The course description will tell you if this will apply to you.

Universities can see your preferences, but this will not affect what you're offered.

All preferences on your application are considered in the order you've listed them. If you're not selected for your first preference you'll be considered equally with all other eligible applicants for your second preference and so on.

Your chance of being selected for a particular course isn't decreased because you listed it as a lower preference and you won't be selected for a course just because you listed that course as a higher order preference.

See page 21 for more information about changing your preferences.

---

*Make sure you apply with your legal name. If you're registered with the NSW Education Standards Authority using a nickname, anglicised name or preferred name, have this changed. Your name on your UAC application and NSW Education Standards Authority record must be what's on your photo identification (passport or driver's licence).*

*This is the name that will be on your results, ATAR Advice Notice and offer. When you enrol at uni you'll need to show identification that matches the name on your application.*

---

## International Baccalaureate

An International Baccalaureate (IB) is accepted by UAC's participating institutions as equivalent to an Australian Year 12. If you're completing an IB, you won't receive an ATAR, but you will receive a UAC rank based on your IB score.

## FRED AND LAURA

Fred is interested in sports-based courses, including exercise and sport science, exercise and health science, human movement science, sports coaching and sports psychology.

He's also interested in business courses, including accounting, banking and finance, commerce, economics, management, marketing and sports management.

Because he has a broad range of courses to choose from, Fred has decided to list five courses in his application. He lists a Bachelor of Management (Sport) as his first preference because it's the course he most wants to study; it combines both his areas of interest – business and sport – even though he's not sure he will have the ATAR

to make the cut-off (the course listing indicates it was 85.20 last year). He lists a Bachelor of Business (Sport Management) as his second preference. It's in the same area as the course he has as his first preference but the cut-off is more achievable.

For his third, fourth and fifth preferences, Fred chooses business courses that could lead him to careers in banking, finance, marketing and management. He is confident that his ATAR will be high enough for him to get an offer to one of these courses.

Laura is certain of the courses she wants to study and chooses four for her application. A Bachelor of Animal Science is her first preference because she enjoys looking after her horses. Having grown up on a farm she is interested in the land and how to care for it for future generations, so her second preference is a Bachelor of Agricultural Business Management and her third is a Bachelor of Environmental Science.

Her fourth preference is a teaching course which would allow her to focus on her interest in art.

## Educational Access Schemes

Educational Access Schemes (EAS) are for students who've experienced long-term educational disadvantage because of circumstances beyond their control.

### Eligibility

The disadvantage must have seriously affected your educational performance for a period of at least six months.

Disadvantages could include:

- attending three or more different secondary schools in Australia
- moving interstate
- the death of an immediate family member or close friend
- a severe life-threatening illness
- the divorce or separation of parents
- work requirements to support your family
- excessive responsibility for care of children or family members
- a severe and long-term medical or psychiatric condition or disability.

EAS doesn't cover incidents like breaking your arm just before your exams. In this situation you could submit an illness/misadventure appeal form (available at the exam centre) to the NSW Education Standards Authority via your school principal.

### Applying

The application form is in the EAS booklet, which is available in early August from your school. The booklet and application form can also be downloaded from UAC's website. This is a separate application to applying for university.

You'll need to supply supporting documentation with your EAS application. For example, if you apply under the disrupted schooling category because you attended three or more different secondary schools during years 10, 11 and 12, you'll need to submit:

- an Applicant's Statement detailing the schools you attended and the reasons you changed schools during this period
- an Educational Impact Statement completed by someone at your school such as a teacher, counsellor, student adviser or your principal
- a record of attendance from each school you attended.

You can apply for all the disadvantages that are applicable to your situation. You'll need to submit separate statements and supporting documents for each disadvantage.

If you submit your EAS application before the end of November you'll receive an eligibility letter through UAC's website around the time ATARs are released. The eligibility

letter will tell you which institutions will consider your EAS application. This will help you make decisions about your preferences in time for the Main Round.

Elite athletes or performers are not eligible to apply for EAS on the basis of missing periods of schooling due to sporting or performance commitments. However, some institutions give special consideration to elite athletes or performers – you'll need to check with individual institutions.

International students are also not eligible for EAS.

### Assessment

EAS applications are assessed centrally at UAC but individual institutions have their own policies on how EAS assessments are used to allocate offers.

Institutions use EAS assessments in two ways:

- they set aside a number of places
- they allocate bonus points.

You won't be notified of the bonus points allocated to you.

**More information about Educational Access Schemes is available at [uac.edu.au/eas](http://uac.edu.au/eas).**

## Schools Recommendation Schemes

Schools Recommendation Schemes (SRS) are one way institutions make offers to current Year 12 students who have applied for undergraduate admission through UAC.

SRS aim to help current Australian Year 12 students gain access to higher education by using a wide range of selection criteria, including school recommendations, senior secondary studies and personal awards and achievements.

### Eligibility

SRS are open to Year 12 applicants in the current year who are attempting:

- an Australian Year 12 qualification, or
- an International Baccalaureate in Australia

and who are:

- UAC applicants for undergraduate admission that year
- Australian or New Zealand citizens
- permanent residents of Australia or holders of Australian permanent resident humanitarian visas.

International students can't apply for SRS.

## Applying

Applications for SRS are completed online and open in early August. This is a separate application to applying for university.

The SRS booklet is available in August from your school and can be downloaded from UAC's website.

After you apply your school will provide their assessment of your abilities and aptitude.

Participating institutions take a variety of information into account when considering your application, including:

- your senior secondary studies
- your awards
- your achievements
- your school's assessment.

You'll need to supply supporting documentation for each award or achievement you include.

Each institution has its own policies on determining SRS eligibility.

## Assessment and offers

After your school has completed its assessment, your application will be processed by UAC and then considered by participating institutions.

In most cases, institutions make offers to successful applicants before the Main Round in January.

**More information about Schools Recommendation Schemes is available at [uac.edu.au/srs](http://uac.edu.au/srs).**

## Equity Scholarships

Equity Scholarships (ES) help financially disadvantaged students with the costs associated with higher education.

### Eligibility

If your family is receiving a Centrelink or other Australian Government means-tested income support payment, such as a Disability Support Pension, Parenting Payment (single) or Carer Payment, you are considered to be financially disadvantaged.

You will also be considered for an Equity Scholarship if you meet one or more of the following criteria:

- have carer responsibilities
- have English language difficulty
- have financial hardship
- are an Indigenous Australian

- have a long-term medical condition/disability or ongoing effects of abuse
- have refugee status (disrupted schooling)
- reside in a regional or remote area
- have sole parent responsibilities.

Be aware that meeting the scholarship eligibility criteria doesn't guarantee that you will be awarded a scholarship. There are a limited number of Equity Scholarships and there are more applicants than scholarships. Individual institutions make offers as a result of a competitive process. If you're unsuccessful it doesn't mean that you're not in need; rather, it means that there are other applicants who've been assessed as being in greater need.

## Applying

Apply online for UAC Equity Scholarships at [uac.edu.au/equity](http://uac.edu.au/equity). Applications open in early August. This is a separate application to applying for university. The ES booklet is available in early August from your school and can be downloaded from UAC's website.

**More information about Equity Scholarships is available at [uac.edu.au/equity](http://uac.edu.au/equity).**

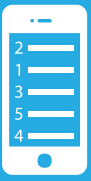

By submitting just one Equity Scholarships application through UAC you will be considered for all Equity Scholarships for which you are eligible. You'll need to supply supporting documentation with your application. For example, if you apply under the long-term medical condition category, you'll need to submit:

- a Personal Statement written by you outlining the nature of your condition and the personal impact it has had on you
- a Medical Impact Statement, completed by a registered health professional treating you for your condition
- an Educational Impact Statement completed by someone at your school such as a teacher, counsellor, principal or another responsible adult who can comment on the impact of your disadvantage on your studies.

## Offers

Institutions make their Equity Scholarships offers after assessing applications submitted as part of a competitive application process. The Equity Scholarships application gathers sufficient information from applicants to determine which applicants best meet the eligibility criteria.

Equity Scholarships can only be awarded to students who have also received an offer of admission to that institution.

# Step 3: Manage

Once you've applied for uni, it's important to know how to manage your application. This means understanding your selection rank, course cut-offs, bonus points, and how to change your preferences.

## Selection rank

Your selection rank determines whether you are eligible for selection to any of your course preferences. For most HSC students your selection rank is your ATAR. However, if you're eligible for any bonus points or EAS consideration, these will be combined with your ATAR and your selection rank will be higher than your ATAR.

## Cut-offs

The cut-off for a course is the minimum selection rank needed by most Year 12 applicants for selection into a course. It is **not** an 'ATAR cut-off'.

Your selection rank **may** be your ATAR, or it may be your ATAR plus any bonus points you are awarded. For this reason, offers are made to students with ATARs below the cut-off.

The interaction of three factors determines cut-offs:

- the number of places available in the course
- the number of applicants for the course
- the quality of those applicants.

These three factors mean that cut-offs can change from year to year and are not known before applicants are selected for a particular course in a particular year. The cut-off for any course can rise, fall or remain the same.

The cut-off does not represent the average ability of the students accepted for the course and does not reflect the difficulty or quality of the course.

The cut-offs for courses in a particular year are only known after Main Round offers for that year are made, therefore UAC publishes Main Round cut-offs for 2017 courses in this booklet, in the UAC Guide and in the course search on UAC's website and in the My UAC app. You can use these cut-offs as an indication of course cut-offs for 2018.

*The course cut-off is not an 'ATAR cut-off'.*

*The course cut-off includes bonus points.*

*Offers are made to applicants with ATARs below the cut-off.*

## International students

Cut-offs for international applicants applying through UAC may differ from those of domestic applicants. Use the international course search at [uac.edu.au/international/course-search](http://uac.edu.au/international/course-search) or refer to UAC's international booklet for cut-offs for international students.

Dates for offers and deadlines for changing preferences are also different: visit [uac.edu.au/international/key-dates.shtml](http://uac.edu.au/international/key-dates.shtml).

## Bonus points

Many applicants receive an offer to a course even though they have an ATAR below the published cut-off. Often this is because they've been awarded bonus points for that course.

Bonus points are allocated for things like performance in HSC subjects, living or attending school in a certain area, and applying for consideration through EAS.

Subject bonus points are awarded differently from institution to institution and from course to course within the same institution. Visit each institution's website for details.

Regional bonus points are for students who live in or attend school in the catchment areas of specific institutions. For details of regional bonus points, visit each institution's website.

If you're eligible for bonus points, they will be automatically added to your application.

These bonus points are different to Educational Access Schemes bonus points (read page 17).

### How bonus points work

Bonus points change your selection rank for a particular course preference, because your selection rank equals your ATAR plus bonus points. If institutions allocate bonus points, they're **not** added to your ATAR.

You need to remember that:

- bonus points do not change your ATAR, they change your selection rank for a particular preference
- course cut-offs include bonus points
- your selection rank = your ATAR + bonus points
- bonus points are automatically added to your UAC application.

As bonus points schemes are course specific, your selection rank can be different for each of your course preferences.

For example: Course A has six applicants and only three places available. The six applicants have the following selection ranks:

Applicant	Selection rank
1	89.00 (ATAR of 89.00)
2	88.00 (ATAR of 87.00 plus 1 bonus point)
3	87.00 (ATAR of 83.00 plus 4 bonus points)
4	86.00 (ATAR of 86.00)
5	85.00 (ATAR of 83.00 plus 2 bonus points)
6	84.00 (ATAR of 84.00)

Offers will be made to applicants 1, 2 and 3. Applicant 4 won't receive an offer, even with an ATAR higher than applicant 3, and applicant 3 will receive an offer even though their ATAR is below the cut-off. The cut-off for Course A will be 87.00. This is the lowest selection rank required to receive an offer to Course A.

## FRED AND LAURA

Laura has found out that the institution she's applied to offers regional bonus points to applicants who, like her, live or attend school in its catchment area. These bonus points will be automatically added to her application for courses at that institution – she doesn't have to do anything. Laura may also receive bonus points through EAS for attending a rural school. These points will be added to her selection rank automatically.

Fred isn't eligible for regional bonus points as he lives outside the catchment area of the institution he wants to attend.

## Changing your preferences

After you apply, you can log in to Check & Change on UAC's website or through the My UAC app as often as you like to add, remove or change the order of your preferences. There is no charge for this.

Once you've received your HSC results and your ATAR and have an idea of the bonus points you may be eligible for, it's time to go back to your preferences to make sure they're realistic. Perhaps you've done better than you expected and want to change the courses you applied for, or maybe you've rethought what you really want to study.

You don't want to miss out on an offer because you don't meet the cut-offs for the courses you've listed. Go back and look at last year's cut-offs for your preferred courses.

If you're concerned that you're not going to meet the cut-offs for these courses, consider adding one or two pathway courses to your list of preferences. Pathway courses generally include non-degree courses such as foundation

studies, preparatory courses and Certificate, Diploma or Associate Degree courses. If you successfully complete a pathway course, an institution may guarantee you entry into a particular degree course. Otherwise, you can use your pathway course studies to apply and compete for admission to other degree courses. You may also be awarded credit for some of your pathway course studies.

Also check that you're not wasting preferences by listing courses that have already closed or have additional selection criteria or prerequisites that you haven't met.

Make sure you do this by the final closing date for change of preferences for the next offer round. For the Main Round of offers this is in the first week of January. Change of preference dates for all offer rounds can be found at [uac.edu.au/undergraduate/offers/dates.shtml](http://uac.edu.au/undergraduate/offers/dates.shtml).

## FRED AND LAURA

It's mid-December and Fred and Laura have both received their ATAR. Fred's ATAR is 57.10 and Laura's ATAR is 78.50. Now that they know their ranks they can realistically review their course choices. They have about two weeks to change their course preferences before offers are made in the Main Round.

Fred is disappointed with his ATAR and realises he is unlikely to receive an offer to his dream course, a Bachelor of Management (Sport), so he's decided to change his course preferences to remove it from his list and make his second choice, the Bachelor of Business (Sport Management), his new first preference.

He speaks to an admissions officer at the university who advises him to list two pathway courses as well. A pathway course is a lower-level course with a lower cut-off that may help him gain entry into the degree course the following year if he completes it successfully. For example, if Fred completes a Diploma course successfully he can apply for entry to the degree course the following year. He may even gain credit for prior learning. Fred puts a Diploma of Business as his second preference.

Laura is pleased with her ATAR and is still keen to study at her local university. Over the holidays she's been doing lots of reading about the environment and has found out that by studying a Bachelor of Environmental Science she will have a wide range of careers available to her, including national parks and protected area management, environmental protection and environmental education and interpretation. She has decided to change her preferences and make this her first preference. Judging by last year's cut-off of 72.55, her ATAR should be high enough for her to receive an offer.

# Step 4: Accept

You will find out if you have received a place in a course in one of the many offer rounds.

## Offer rounds

There are offer rounds throughout the year. At these times UAC advises students on behalf of institutions whether they've been offered a place in one of their courses.

Although some Year 12 students receive early offers, the most important offer rounds for Year 12 applicants take place in December and January, after ATARs are released. This is when the majority of applicants receive their offers.

The offer rounds before this are usually for:

- early entry schemes, such as SRS
- ADFA (Australian Defence Force Academy) courses
- distance education courses
- deferred students
- some non-Year 12 applicants.

Not all institutions participate in these early rounds, so if you don't receive an early offer, and aren't in one of the categories above, don't worry; remember that most offers are made in December and January.

Subsequent offer rounds are for entry to courses that still have vacancies or for new courses that begin later in the year, such as in second semester.

You can receive an offer in more than one round, but you can only receive one offer per round.

Offer round dates are available at [uac.edu.au/undergraduate/offers/dates.shtml](http://uac.edu.au/undergraduate/offers/dates.shtml).

## Receiving an offer

To find out if you've been made an offer to study at your chosen university, go to UAC's website or the My UAC mobile app on the offer round date and log in using your UAC application number and UAC PIN.

The institutions, not UAC, decide who receives offers. So if you have questions, you'll need to speak to the admissions office at the institution. You can ask why you didn't receive an offer and what other study options are available to you.

## Accepting your offer

If you receive an offer in one round, don't assume that you'll receive another offer in a later round.

Accept any offer you receive by following the instructions the institution has given you. You must accept your offer by the date indicated in your offer material, otherwise your offer will lapse and it may go to another applicant in the next round.

Accepting an offer doesn't stop you from being considered in later offer rounds, but you must remove the successful course from your preferences list to prevent it blocking offers to lower preferences in future rounds.

If you receive an offer in one round and accept it, then receive an offer in a later round, you can choose either to:

- keep your previous offer and not accept your new offer
- accept your new offer and withdraw from the course you've already accepted.

Once you accept your offer, the next step is enrolment. Remember that after you enrol you have until the census date at the end of March to pay your fees, sign up for a HECS-HELP or FEE-HELP loan, or withdraw without penalty from the course.

## Receiving further offers

Once you've received an offer, you can't be made an offer to any lower course preferences unless you change your preferences.

So, if you receive an offer to your first preference, you won't be considered for further offers in subsequent rounds unless you move that course down to the bottom of your list or remove it entirely. (Before you do this, don't forget to accept the course you've already been offered!)

## FRED AND LAURA

Laura is thrilled; she's received an offer to her first preference – a Bachelor of Environmental Science. She accepts her offer and starts planning for the year ahead.

Fred is pleased, too; he's received an offer to his second preference, a Diploma of Business. He's determined to do well and will probably start the Bachelor degree in his second year. He's also looking forward to getting involved in sport on campus.

If you've received an offer to a lower preference, you will be automatically considered for higher preferences in the next round. But if you'd like to be considered for other courses, you need to remove the course you've been offered, and any other courses you're no longer interested in, from your list of preferences.

For example, let's say you have the following five courses listed as preferences and you receive an offer to your second preference:

Preferences	
1	B Life Science
2	B Animal Science
3	B Science (Physics)
4	B Human Sciences
5	B Natural Science (Animal Science)

First of all, you should accept your offer to B Animal Science. Then, if you want to be considered for courses other than the course you have as your first preference (B Life Science), you can change your preferences in any way you like: just make sure you have a realistic chance of meeting the cut-off and can satisfy any additional course requirements.

You might have second thoughts about what you really want to study and change your preferences to the following:

Preferences	
1	B Science (Physics)
2	B Science (Flexible)
3	B Biotechnology
4	B Human Sciences
5	B Teaching/B Science

Note that B Animal Science has been removed from the list. As long as you have accepted your offer to this course you won't lose your place. If you now receive an offer to a course

in your new list, you can decide whether to accept it and withdraw from B Animal Science, or not accept the new offer and keep your place in B Animal Science.

If you reject an early round offer or let it lapse, and then change your mind, you'll need to speak with the institution's admissions office as only the institution can reinstate the offer. Also, if you leave the offered, but rejected, course as your first preference, no further offers can be made because the rejected offer will 'block' any new offers to lower preferences.

Finalise your choices by the closing date for change of preferences for the next round. These dates are available in the UAC Guide and on UAC's website.

Courses that start later in the year are progressively added to UAC's online course search so check for these when changing your preferences. Not all institutions offer courses that start later in the year.

If you receive another offer and accept it, don't forget to withdraw from the course you've already accepted.

**For change of preference and offer dates, visit [uac.edu.au/undergraduate/offers/dates.shtml](http://uac.edu.au/undergraduate/offers/dates.shtml).**

### Slipback offers

Some institutions may make a slipback offer to a pathway course if you're not eligible or competitive enough for the course to which you've applied.

This means that you may receive an offer to a lower-level course in the same area at the same institution rather than the course you listed in your preferences, even if you didn't apply for it. For example, you may get an offer to a Diploma in Marketing if you applied for, but weren't competitive enough for, the Bachelor of Marketing at the same institution.

If you successfully complete a pathway course such as a Diploma, an institution may guarantee you entry into some degree courses. You may also be awarded credit for some studies undertaken in your pathway course.

## Enrolment

Each institution has its own procedures for enrolment. When you apply, make sure the name on your application matches your official ID (birth certificate, passport, citizenship documents). You'll need your ID when you enrol and there may be problems if the name on your ID doesn't match your offer letter.

Some institutions have online enrolment and payment of fees. If you plan to pay your student contribution through the HECS-HELP scheme you'll need a tax file number (TFN). Apply online through the Australian Taxation Office website.

Many institutions have orientation days for new students. Orientation programs are designed to help you adjust to campus life. Most include subject selection and course planning, so it's important to attend.

## Bridging courses

You can enrol in some courses even if you haven't completed the HSC subjects recommended for that course. But you may find it difficult, or be limited in your course subject choices, if you haven't completed the recommended subjects.

Most institutions offer bridging courses if you need to do some extra study before the course begins. However, bridging courses are only taught to an introductory level and are not equivalent to the two-year HSC course.

## Deferring

After you've received an offer, you may decide that you'd like some time away from study. Some institutions let you defer your course, usually for six months or a year. Many students use this time to travel, follow a personal interest and get some life experience. You are not usually permitted to undertake tertiary study during this period.

Most institutions will ask you to provide a statement to explain why you want to defer and what you'll be doing during this period. There may also be a fee.

If your deferment application is successful, you'll receive written confirmation from your institution with instructions on how to take up your deferred offer. Read the instructions you receive from your institution carefully.

## Transferring

You may receive an offer to a course that isn't your first preference. Many students enrol in a course with a view to transferring into another course after completing a year's study. A typical example is completing one year of a general degree such as Arts and then transferring to a more specialised degree such as Arts/Law.

Transfers such as this are possible but very competitive and you usually need to achieve excellent results in your first year. Remember that each institution has its own requirements for transfers – check with the relevant institution for more information before you enrol.

In most cases you are not in fact transferring, but withdrawing from one course and applying for entry to another. You usually need to submit a new application through UAC for the new course. Then, if you get an offer you can formally withdraw from your current course. It's important to do this so you don't have additional HECS fees or absent fails.

## If you don't get in...

If you don't get a high enough ATAR for your chosen course, or don't get an ATAR at all, there are many options available if you still want to go to uni.

For example, if you don't meet the cut-off you can change your preferences and try for an offer to a course with a lower cut-off or starting later in the year.

If you didn't get an ATAR, most institutions offer non-award programs or preparation courses which, once completed, can help you gain entry into a Bachelor degree.

If your ATAR is too low, some institutions offer Diploma courses which, when complete, will help you gain entry to a degree course as well as give credit towards a degree. You may receive entry to such a course through a slipback offer from the institution. (Read about slipback offers on page 23.)

When you apply through UAC, you'll be asked if you'd like to receive information about these types of pathway courses. Choose this option to make the most of your application in case you miss out on an offer.

There are also many pathways available between TAFE and uni, and between other tertiary providers and uni. For information about Vocational Education and Training (VET) providers and training courses, visit [studyassist.gov.au](http://studyassist.gov.au).

## Alternative entry schemes and programs

Some institutions have a scheme or program to provide alternative entry to tertiary study. Applicants considered through these schemes don't normally meet the usual minimum admission requirements of the institution, but they meet special requirements determined by the institution. In addition, most institutions have a special admission scheme specifically for Aboriginal and Torres Strait Islander students. Contact the institution for further information about these schemes and programs.

## International students

A few days after you've submitted your application you'll receive a conditional offer letter, which lists all the courses you've applied for.

You can access your conditional offer letter using International Check & Change. You will need your UAC application number and UAC PIN to log in. This letter is intended for your pre-visa assessment only; it doesn't enable you to enrol at your chosen institution.

You only receive one conditional offer letter. You will not receive another one if you change your preferences.

You must receive an unconditional offer to be eligible to enrol in a course.

To receive an unconditional offer you must:

- have the course in your list of preferences when offers are made
- have an ATAR (or equivalent) equal to or higher than the final international course cut-off
- meet any other course entry requirements.

Remember that if you don't meet the requirements for a course, you may receive an offer to another course with a lower level of study, such as an international foundation program.

You can receive more than one offer per round but only one offer per institution in each round: visit [uac.edu.au/international/offers](http://uac.edu.au/international/offers).

You can find out if you've received an offer by checking UAC's website. If you use an agent, your agent will also be able to view your offers.

UAC will email advice about unconditional offers to successful applicants between mid-December and February.

Follow the instructions in your offer pack on how to accept your offer and how to pay the required tuition fee deposits and the compulsory Overseas Student Health Cover (OSHC) charge.

Once you've accepted your offer and made your payment, the institution will send you a Confirmation of Enrolment (CoE). This document will allow you to obtain your student visa.

If you change your residency status after applying, advise UAC if you are still waiting for an offer. Advise the institution, not UAC, if you've already accepted an offer or enrolled.

For information on application closing dates, change of preference dates and offer dates, visit [uac.edu.au/international/key-dates.shtml](http://uac.edu.au/international/key-dates.shtml).

# UAC jargon

Here are definitions of the common terms used by UAC, universities and colleges.

## **ACT Board of Senior Secondary Studies**

The statutory authority responsible for the certification of senior secondary school studies in government and non-government schools in the ACT.

## **Additional selection criteria**

Compulsory requirements, either in addition to, or instead of, normal admission which you must meet to be considered for selection into a course. Examples include a personal statement, questionnaire, portfolio of work, audition, interview or test.

## **Admission requirements**

The minimum qualifications required for you to be considered for entry to a particular course. Entry to many courses is competitive and the attainment of minimum qualifications does not guarantee you will be offered a place.

## **Advanced Diploma**

An award requiring two or three years of full-time, or equivalent part-time, study.

## **Apply**

UAC's online application system at [uac.edu.au](http://uac.edu.au).

## **Areas of study**

Areas of in-depth study or specialisation within a course, consisting of a sequence of subjects/units in a single discipline generally studied throughout the course. Some institutions may refer to areas of study as majors or specialisations. In some courses you can take more than one major.

## **Associate Degree**

An award requiring two years of full-time or equivalent part-time study, which equates to the first two years of a designated three-year degree course.

## **Assumed knowledge**

Some institutions assume you have knowledge of specified NSW HSC courses or equivalent before beginning your course. If you don't have the assumed level of knowledge

but do have a suitable ATAR, you may still be selected for the course, but may be offered a bridging course.

## **ATAR (Australian Tertiary Admission Rank)**

A number between 0.00 and 99.95 that measures your overall academic achievement in Year 12 in relation to your age cohort for selection to tertiary courses. The ATAR is a rank, not a mark. It helps institutions rank applicants for selection.

## **ATAR courses**

Board Developed courses for which the NSW Education Standards Authority conducts examinations that yield graded assessments. Classified as Category A courses or Category B courses, these are the only courses that can be included in the ATAR calculations.

## **Bachelor degree**

An award requiring three or four years of full-time, or equivalent part-time, study.

## **Board Developed courses**

Courses for which the syllabus has been developed by the NSW Education Standards Authority.

## **Board Endorsed courses**

Courses that you can study as one or two units and as preliminary and/or HSC courses. They count towards the HSC and appear on your Record of Achievement. However, Board Endorsed courses do not count in the calculation of the ATAR.

## **Bonus points**

Points allocated to a student by an institution and used in addition to an applicant's ATAR to increase their selection rank for a particular course preference. They do not change a student's ATAR. Examples are subject bonus points or regional bonus points. Bonus points can also be awarded to EAS applicants.

**Bridging courses**

Courses that enable you to achieve the required level of assumed knowledge for a tertiary course. These courses are only taught to an introductory level and are not equivalent to the two-year HSC course.

**Category A courses**

ATAR courses that have the academic rigour and depth of knowledge to provide an adequate background for tertiary studies and can contribute to the ATAR calculation.

**Category B courses**

ATAR courses that don't provide an adequate background for tertiary studies, but can contribute to the ATAR when combined with Category A courses. No more than two units of Category B courses can be included with the ATAR calculation.

**Census date**

The date on which all your enrolment requirements must be finalised for a semester. You can withdraw from a course before this date without financial or academic penalty. Course fees are payable from this date.

**Check & Change**

UAC's online facility for applicants to log in to their application and check or change their details and course choices. Access Check & Change through UAC's website at [uac.edu.au/undergraduate/check-change](http://uac.edu.au/undergraduate/check-change).

**Cohort**

To ensure the interstate equivalence of ATARs, an age cohort is used in each state. This ensures that a student's rank is a measure of their performance against all students who started Year 7 with them in that state, not just those who completed Year 12 and were eligible for an ATAR.

**Combined/double/dual degrees**

Allow students to complete two degrees in less time than if the two degrees were studied sequentially.

**Commonwealth-supported place (CSP)**

A place in a course to which the Australian Government contributes towards the cost, and the student pays a student contribution.

**Course cut-off**

The minimum selection rank required for selection to a course. The cut-off includes bonus points; therefore, an applicant can receive an offer to a course even if their ATAR is below the course cut-off. UAC publishes the previous year's Main Round cut-offs in this booklet, in the UAC Guide, in the course search on UAC's website and in the My UAC app as a guide for the current year. The cut-offs for courses in a particular year are only known after Main Round offers for that year are made.

**Deferment**

Delaying the commencement of a course, usually for six months or a year. Some institutions only grant deferments in special circumstances.

**Diploma**

An award usually requiring two or three years' full-time, or equivalent part-time, undergraduate study. These courses are usually characterised by more emphasis on practical skills than on the theoretical content.

**Domestic fee-paying students (DFEE)**

Students who are Australian or New Zealand citizens or permanent residents of Australia who meet the entire cost of their studies through tuition fees.

**Educational Access Schemes (EAS)**

Schemes for university applicants who have experienced long-term educational disadvantage due to circumstances beyond their control or choosing. Apply for EAS through UAC.

**Equity Scholarships (ES)**

Money to help financially disadvantaged students with the costs associated with higher education. Apply for ES through UAC.

**FEE-HELP**

A loan for eligible fee-paying students to pay their tuition fees. The Australian Government is exploring a range of changes to higher education that may affect the fees that universities can charge, and the way that students repay debt accumulated under the Higher Education Loan Program (HELP). For further information, visit the Australian Government's Study Assist website at [studyassist.gov.au](http://studyassist.gov.au).

**HECS-HELP**

A loan for eligible Commonwealth-supported students to pay their student contributions. The Australian Government is exploring a range of changes to higher education that may affect the fees that universities can charge, and the way that students repay debt accumulated under the Higher Education Loan Program (HELP). For further information, visit the Australian Government's Study Assist website at [studyassist.gov.au](http://studyassist.gov.au).

**Honours**

An additional year of study at university involving a higher level of study in a certain subject.

**HSC subjects and courses**

A subject is a general area of study or a key learning area. A course is a branch of study within a subject. A subject may have several courses. For example, within the subject of English, courses include English (Standard), English (Advanced), HSC English Extension 1, HSC English Extension 2 and English as a Second Language (ESL).

**Institution**

A provider of tertiary study, such as a university or a college.

**International fee-paying students (IFEE)**

Students who are not Australian or New Zealand citizens or permanent residents of Australia and meet the entire cost of their studies through tuition fees.

### **Non-award program**

A program for students looking for a pathway into a Bachelor degree. It allows students to study individual units (subjects) that, when successfully completed, can count towards a degree.

### **Non-standard Year 12 applicant**

An applicant who is completing a non-standard program of study through, for example, Australian Christian Education, Rudolph Steiner Education, home schooling and the Queensland Senior External Examination. Identified as a non-Year 12 applicant when applying through UAC.

### **NSW Education Standards Authority**

Sets the core curriculum for Kindergarten to Year 12, sets guidelines for school assessment tasks, and sets, organises and marks the HSC examinations for government and non-government schools in NSW. Previously called the Board of Studies, Teaching and Educational Standards NSW.

### **Open days**

Open days are set aside for prospective students to visit a campus to view the facilities and meet academic staff and students.

### **Pathway courses**

Non-degree courses – such as foundation studies, preparatory courses and Certificates, Diplomas or Associate Degrees – offered by institutions to applicants who don't meet the entry requirements for their course or need further support and preparation before studying at degree level. Many institutions offer entry into the degree after successful completion of the corresponding pathway course. Some institutions offer pathway courses through UAC.

### **Percentile**

An indicator of your position in a course relative to other students. For example, if your percentile in a course is 73, you are in the top 27 per cent of the students in that course.

### **Preparation courses**

Designed for applicants who haven't completed Year 12 or haven't met entry requirements as preparation for further study. Minimum age requirements sometimes apply and the length of these courses differs between institutions.

### **Prerequisites (see also Assumed knowledge)**

A specified NSW HSC course or equivalent that you need to have completed, or achieved a specified standard in, before you are eligible to be offered a place in the tertiary course (course prerequisites) or a subject within that course (subject prerequisites).

### **Private college**

Smaller institutions that usually offer practical vocational courses specialising in a particular field such as business, psychology, creative arts or hospitality. They are not operated by governments and fees are usually required up-front although some courses may be eligible for FEE-HELP.

### **Recommended studies**

NSW HSC or equivalent courses that institutions suggest will help you in your chosen university course. However, if you haven't studied these courses your chances of selection are not affected.

### **Scaling**

The first step in calculating your ATAR. It enables the many different courses taken by students to be compared fairly. Scaling is designed to encourage you to take courses for which you are best suited and which best prepare you for future studies. The underlying principle is that you should be neither advantaged nor disadvantaged by choosing one HSC course over another.

### **Schools Recommendation Schemes (SRS)**

Schemes that enable schools to recommend current Year 12 students who have applied for undergraduate admission through UAC. SRS aim to assist access to higher education for current Australian Year 12 students using a wide range of selection criteria including school recommendations, senior secondary studies and personal awards and achievements. Apply for SRS through UAC.

### **Semester**

A division of the academic year, usually into first and second semesters. Students can start courses at the beginning of the first and, in some cases, second semester. Some institutions call them autumn and spring semesters. Others use session or half-year. Some institutions have trimesters or terms, with an additional study period over summer.

### **Slipback offer**

An offer to a lower level of study than you have applied for. For example, you apply for a Bachelor degree and the institution decides that, while you are not eligible and competitive enough for entry, you are eligible for a lower level of study (such as a Diploma). The institution makes you an offer to the lower level course.

### **Universities Admissions Centre (UAC)**

The central office that receives and processes applications for admission to most undergraduate courses at its participating institutions as well as applications for Educational Access Schemes, Schools Recommendation Schemes and Equity Scholarships. UAC notifies NSW HSC students of their ATAR (ACT students are notified by their school) and makes offers of admission on behalf of participating institutions. It also processes applications for postgraduate courses. Owned by universities in NSW and the ACT, UAC is a not-for-profit organisation that aims to provide excellence in admissions services and promote equity of access to tertiary education.

### **Year 12 applicant**

A student who is sitting one or more units of an Australian Year 12 in Australia or outside Australia (except Queensland Year 12 external students) or sitting the International Baccalaureate in Australia or outside Australia in the current admissions period (August to July each year).

# My UAC

UAC's mobile app

My UAC allows you to search for courses, manage your course preferences, and check your ATAR and your offers on your phone or tablet.

## Download My UAC

### Search for courses

You can search for courses by keyword, field of study, institution name, course name, course cut-off, course code, or distance from your location.

Tag your favourite courses. They'll be saved to your Favourites list so they'll be easy to find next time you use My UAC.

### Manage your course preferences

Your course preferences are the courses that you have applied for through UAC Apply. In My UAC, you can manage your application wherever you are by adding courses, removing courses or re-ordering your course preferences.

> Your UAC PIN. UAC PINs are sent to Year 12 students in August. If you've forgotten your UAC PIN and you have applied through UAC, use Check & Change to have your UAC PIN automatically emailed to you. Otherwise, call UAC on 1300 ASK UAC (1300 275 822) or (02) 9752 0200 from mobiles to have your PIN re-issued.

#### What you need to log in

> Your UAC application number. It has nine digits and is issued when you apply. You can find it on your Confirmation of Application.

### View your 2016 ATAR

ATARs will be available from 9am, Friday 16 December 2016.

You'll need your Year 12 student number (or your UAC application number) and UAC PIN to view your ATAR.

### Check your offers

You can view and respond to your offers.

Offers are made in a number of offer rounds throughout the year.

### Need help?

For more information about using My UAC, visit [uac.edu.au/undergraduate/mobile-app](http://uac.edu.au/undergraduate/mobile-app).

**My UAC is available for FREE in iOS and Android. Download our App today!**

# Course listing

UAC's institutions offered more than 2,000 undergraduate courses in 2016–17. In this section we list these courses under broad areas of study so you'll have an idea of the courses available to you.

Now that you've read through this booklet, researched your career options and know how to apply, the next step is to explore the courses of study that will help you achieve your goals.

The following pages list areas of study and the tertiary courses offered for 2016–17, the institution that offered the course, the UAC course code and the Main Round course cut-off. Courses that were cancelled or those from institutions new to UAC in 2016–17 are not included.

Remember, the courses and their cut-offs listed here are only a guide. These were the Main Round cut-offs for these courses in 2016–17. Courses offered and their cut-offs may change from year to year.

To find out more about a course listed, you can search for it using the course search on UAC's website or the My UAC app. The course description will provide major areas of study, career opportunities and any other additional information. Also visit the website of the institution offering the course.

A listing of courses offered for 2017–18 will be available in the UAC Guide – delivered to Year 12 students at your school in July – and on UAC's website and on the My UAC app in August. The course cut-offs for these courses will be available when the Main Round offers are released in January 2018.

Key to institution names	
ACAP	Australian College of Applied Psychology
ACNT	Australasian College of Natural Therapies
ACU	Australian Catholic University
AMC	Australian Maritime College
ANCB	Australian National College of Beauty
ANU	Australian National University
BBC	Billy Blue College of Design at Torrens University
CATC	CATC Design School
CQU	CQUniversity
CSU	Charles Sturt University
GU	Griffith University
ICMS	International College of Management, Sydney
JNI	Jansen Newman Institute
LTU	La Trobe University
MC	Macleay College
MIT	MIT Sydney
MQ	Macquarie University
NAS	National Art School
SAE	SAE Creative Media Institute
SCU	Southern Cross University
SIBT	SIBT
TOP	Top Education Institute
TUA	Torrens University Australia (including APM College)
UC	University of Canberra
UNCLE	University of Newcastle
UNE	University of New England
UNSW	UNSW Australia or UNSW Canberra at ADFA
UOW	University of Wollongong
USYD	University of Sydney
UTS	University of Technology Sydney
WBC	William Blue College of Hospitality Management
WS	Western Sydney University

**NOTE:** Degrees across several fields of study are listed at the end of this table.

#### Key to cut-offs

A+C	Combination of ATAR and additional selection criteria used	n/o	Course not offered for Main Round 2016–17 admissions
N/A	Selection criteria other than the ATAR used; or the course is not offered to current Year 12 applicants	U/C	Unrestricted course entry

UAC and individual contributing institutions are the owners of the copyright in this publication.

Apart from any fair dealing for the purpose of private study, criticism or review, or otherwise as permitted under the *Copyright Act 1968*, no part may be reproduced by any process without UAC's written permission. Enquiries should be addressed to the Managing Director, UAC.

UAC has no objection to secondary schools and tertiary institutions reproducing or using the publication provided it is for use only within their own institution and this copyright statement is included.

If the document isn't reproduced in full, sections shouldn't be copied out of context where information could be incomplete and/or misleading. Schools and tertiary institutions must ensure that this information is not transmitted to any other person or body without prior permission from UAC.

This publication is available on UAC's website.

### About this publication

*All About UAC for 2017 Year 11 and 12 Students* provides information for Year 11 and 12 students about applying for tertiary study through UAC. It guides students through things to consider and common questions about tertiary study and explains the process of applying to university, managing your application, accepting an offer and enrolling.

### UAC disclaimer

While UAC and the institution authors of this publication have used their best endeavours to ensure that information and analyses of information contained in this publication are correct at the time of printing, any use or reliance whatsoever on the publication by any person is that person's responsibility and UAC and the institution authors of this publication disclaim any responsibility or liability in relation to that use or reliance.

UAC and the institution authors reserve the right to change their processes, scholarships, schemes, content or the method of presentation of any unit of study, or to withdraw any unit or course of study on offer or to impose limitations on enrolments in any unit or course of study.

### Advertising disclaimer

UAC does not necessarily endorse any product or service that may be advertised in this publication.

### Fees and charges

All UAC fees and charges include 10 per cent GST. UAC fees and charges are not refundable under any circumstances, except as required by law.

### Times

Times indicated in this Guide are based on Sydney time.

### UAC Privacy Policy

The Universities Admissions Centre (NSW & ACT) Pty Ltd (UAC) recognises the importance of protecting personal information and is bound by the NSW State Information Protection Principles<sup>1</sup>, the Australian Privacy Principles<sup>2</sup> and the NSW Health Privacy Principles<sup>3</sup>.

Details of UAC's Privacy Policy are available at [uac.edu.au/general/privacy.shtml](http://uac.edu.au/general/privacy.shtml). Also refer to UAC declarations which are set out in our publications, online at [uac.edu.au/general/legal.shtml](http://uac.edu.au/general/legal.shtml) or within our applications.

UAC collects personal information and, in some circumstances, information regarding your health, or information about someone other than yourself, for the purpose of processing your application for admission to tertiary institutions. UAC will only collect information for lawful purposes related to its function. You may seek access to personal information about you collected by UAC.

The type of personal information UAC holds includes your contact details (name, address, telephone number, email address), date of birth, gender, citizenship, educational achievements, professional qualifications, employment experience, examination results, information related to your health or the health of a family member and your Australian Tertiary Admission Rank (ATAR).

If you are providing personal information about someone other than yourself, you should tell them about UAC's Privacy Policy, which can be found on UAC's website at [uac.edu.au/general/privacy.shtml](http://uac.edu.au/general/privacy.shtml).

If you are a NSW Higher School Certificate student, your Year 12 results will be held, along with Year 12 results from other states and territories in Australia, in an archive database at UAC. If you are eligible for an Australian Tertiary Admission Rank (ATAR) or a Limited ATAR, these will also be held in the database. Your results, including your ATAR if you are eligible, will be held in similar archives at tertiary admissions centres in other states in Australia. Results held in these archives will only be accessed by the relevant tertiary admission centre if you initiate an application for tertiary study through that centre, or if you submit an application for tertiary study directly with an institution participating in that centre.

Any questions regarding privacy at UAC should be forwarded in writing to: The Managing Director, UAC, Locked Bag 112, Silverwater NSW 2128.

1 In the *Privacy and Personal Information Protection Act 1998* (NSW).

2 In the *Privacy Act 1988* (Cth).

3 In the *Health Records and Information Privacy Act 2002* (NSW).
